

The logo for Tootal Fabrics features the word "TOOTAL" in a gold, serif font, with a red vertical bar behind it. Below the bar, the word "FABRICS" is written in white, sans-serif font on a red background.

TOOTAL

FABRICS

The background of the advertisement is a dark fabric with a detailed pattern of hummingbirds in flight. The birds are rendered in various colors, including red, blue, and yellow. They are surrounded by green leaves and clusters of small white and purple flowers. The fabric is draped, creating soft folds and shadows.

Tootal goes Ladieswear

Your local partner...

Tootal Fabrics (Holland) B.V. offers a wide range of different fabric types. These fabrics are suitable for many occasions. This lookbook shows a variety of fabrics for ladieswear. Experience a day in the life of an average woman while she gets ready to get out of bed, go to work and go out at night.

Let us inspire you with a small selection of our latest designs and collections.

Continuously we add ladieswear fabrics such as high quality viscose, polyester, linen and linen/cotton in different colours and (digital) prints. Upon request we develop products and designs using our product development and design facility. For more inspiration visit our website www.tootal.nl and contact our sales representative.

Get inspired

Get inspired with more fabrics from our standard collection, for instance our Seersucker or Cotton Slub fabrics. Seersucker is a cotton fabric with a puckered look and it is perfect for ladieswear, due to its elegance and lightness. We supply some lovely seersucker items in fresh colours. Our cotton slub fabrics have an unrefined, natural look of slubbing which is fashionable in ladieswear. We offer many colour variations.
